

## **Donations Delivered to Dog Shelter by Helen and Daryl Jones and their daughter Ginny in October 2006!**

We visited Katya today and dropped off the items. I have attached some photos and added some words just to give you some background info if you want to put this on your website. Our daughter Ginny, was really taken with all the dogs. Unfortunately we are not in a position to give any of them a home as we are not staying here. My husband works here and all the children (we also have two sons) are staying at school in the UK. I am commuting between the two!! We are all very impressed by the amount of commitment it takes Katya and all the people involved in this good work and we will try to help out each time we come out by making some donations.

Here is some background.

We came to Moscow in April as my husband Daryl was about to start work here.

During our visit our daughter Ginny (12) noticed that there were many dogs wandering about the streets and asked around to see if there were any dog shelters which might need help. After discovering there was (although at the time we did not have specific details) she decided that, after returning home from our visit she would ask around her friends in school to see if they could collect items which she could bring with her on her next visit.

She collected many items including leads, toys, bowls and blankets. She brought these out with her on her visit this week and we also bought some food from Beethoven Pet Store and took this along with us. Although Katya obviously gives the dogs a good home and plenty of affection we saw that she obviously struggles to support these unfortunate animals and we will continue to try and support her on a regular basis.

Thanks again for your help

Best regards  
Helen Jones
